- (2) Regarding ISPF, please refer to items AI and AJ provided in the initial IDS submission. On March 22, 2004, applicant's agent, Robert H. Frantz, contacted Examiner Nguyen to verify that these references were currently available in the file wrapper, which Examiner Nguyen confirmed they were. Upon brief review, Examiner Nguyen indicated that they would be sufficient.
- (3) Regarding REXX, this is a well-known programming language, which is specified as one embodiment option for the logical processes of the invention. We have included two documents in this Supplemental IDS for additional background on REXX for the examiner's reference.

Applicants submit herewith the documents in this Supplemental IDS of which they are aware, in accordance with 37 CFR 1.56, and in response to said Examiner's request. Should further information be needed, please direct all inquiries to the agent of record:
